

Drilling Fluid II

Question Paper

- Q1. State the functions of Drilling Fluid?
- Q2. What are the different types of Drilling Fluids?
- Q3. What are the environmental Impact of Drilling Fluid?
- Q4. What are the Drilling Fluid contaminants?
- Q5. What are the chemical contaminants?
- Q6. What is solids contamination?
- Q7. What are the factors for selecting the drilling fluid?
- Q8. State classification of particles in Drilling Fluids?
- Q9. What are the key Drilling Fluid issues?
- Q10. How you can maximize penetration rate?
